Alzheimer's Disease: The Time is Now – Creating a Safe Environment

This year's Annual Caregiver Conference will explore how professionals and family members can create a safe, flourishing environment for a person with Alzheimer's disease.

This year, the conference will be spread over two days. The first half-day is designed for professionals, with sessions about the safe care of those with Alzheimer's. The second day is for family and professional caregivers, focusing on activities, skills and techniques to provide the care recipient the highest quality of life, both in the home and in a care setting. The closing plenary will then present the latest treatments for those with Early Stage Alzheimer's.

Our vision is a world without Alzheimer's. Until that day comes, we are committed to equip, energize and ultimately empower individuals, families and communities to provide compassionate and effective dementia care and support.

Your support today allows us to enhance our educational programming so we can continue to provide the latest information and skills to caregivers and care partners throughout Central Arizona.

Won't you join us?
